CISSP Boot Camp

Cyber Security's CISSP course is always up-to-date! Our CISSP course now includes prep and review for the new visual exam question format (both Drag and Drop and Hotspot). This new format increases the difficulty of the exam.

Cyber Security provides this highly-rated seven day CISSP Boot Camp to the Information Security community. The Boot Camp trains and prepares you to pass the premier security certification, the Certified Information Systems Security Professional (CISSP®). Professionals that hold the certification have demonstrated that they have deep knowledge of all eight Common Body of Knowledge domains and have the necessary skills to provide leadership in the creation and operational duties of enterprise wide information security programs.

Cyber Security's proprietary CISSP certification courseware materials are always up to date and synchronized with the latest (ISC)² exam objectives. Our industry leading course curriculum combined with our award-winning CISSP training, provided by expert instructors, delivers the platform you need in order to pass the exam with flying colors. You will leave the Cyber Security CISSP Boot Camp with the knowledge and domain expertise to successfully pass the exam the first time you take it.

When you enroll in a Cyber Security CISSP Boot Camp in either our classroom-based or live online boot camp, you are eligible for our Dual Certification program at no extra cost. You have your choice of focusing on management with the ISSMP, a focus on security engineering with ISSEP or a focus on security architecture with ISSAP. Demonstrating additional proficiency in one of these areas is a way for you to quantify your security experience in the form of a highly regarded ISC2 certification, as well distinguish yourself from the other 83,000 CISSP certification holders.
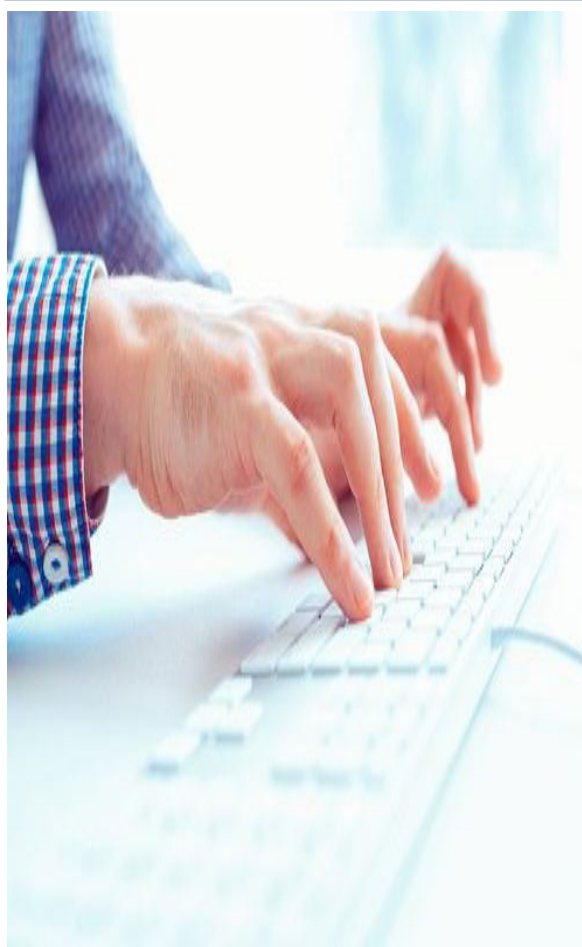

What Our Students Are Saying

"Before this course I did not understand some of the harder concepts of the CISSP like Cryptography. The teaching style, expertise, and good materials helped me understand the toughest topics in the course. I will definitely recommend you to my company and to other colleagues."

Cyber Security has provided the highest quality standards in training for IT professionals for over 10 years, both in a public forum and private-group training at the client's site.

With as few as five attendees, we will come to your organization to deliver training & certification services at significant savings. Transfer your knowledge to the real world with the training you receive immediately that is applicable to your daily operations. When you attend one of our public course offerings, you receive a first-hand view of how our courses can help your team.

You will leave the Cyber Security CISSP Boot Camp with the knowledge and domain expertise to successfully pass the CISSP exam the first time that you take it. We have a 'best-in-the-industry' 93% pass-rate.
