

CISSP Training Boot Camp

Cyber Security Institute's CISSP course is always up-to-date! Our CISSP course now includes prep and review for the new CISSP visual exam question format (both Drag and Drop and Hotspot). This new format increases the difficulty of the exam.

This highly-rated CISSP boot camp is designed to train and prepare you for the Certified Information Systems Security Professional (CISSP) certification exam, the premier security certification created and administered by the International Systems Security Certification Consortium (ISC). CISSP holders have the necessary skills and best practices to effectively create and execute enterprise-wide information security strategies.

Cyber Security Institute's proprietary CISSP certification courseware materials are always up to date and synchronized with the latest (ISC) exam objectives. Our industry-leading course curriculum combined with our award-winning CISSP training, provided by expert instructors, delivers the platform you need in order to pass the CISSP exam with flying colors. You will leave the Cyber Security Institute CISSP boot camp with the knowledge and domain expertise to successfully pass the CISSP exam the first time you take it.

The goal of the course is to prepare professionals for the challenging CISSP exam by covering the objectives of the exam as defined in the (ISC) common body of knowledge (CBK).

CISSP's are expected to have a broad range of skills across security policy development and management, as well as a technical understanding of a wide range of security controls across all disciplines within IT security. Our program provides you with a quick and proven method for mastering this huge range of knowledge.

Cyber Security Institute's boot camp is primarily designed around the CISSP exam domains, with material in each specific area enabling you to receive an unmatched, intense, six-day total immersion training experience — with the seventh day reserved to take the exam.

Free CISSP Concentration Course:

When you enroll in a Cyber Security Institute CISSP live online Flex Pro or Flex Classroom boot camp, you are eligible for our CISSP dual certification program at no extra cost. There are over 125,000 CISSP holders, and this Cyber Security Institute CISSP boot camp gives you the opportunity to distinguish yourself by achieving one of the popular CISSP specializations:

- CISSP-ISSEP: Information Systems Security Engineering Professional — Recognition for Advanced Expertise in Information Security Engineering
- CISSP-ISSAP: Information Systems Security Architecture Professional — Recognition for Advanced Expertise in Information Security Architecture
- CISSP-ISSMP: Information Systems Security Management Professional — Recognition for Advanced Expertise in Information Security Management

CISSPs are expected to have a broad range of skills across security policy development and management, as well as technical understanding of a wide range of security controls across all disciplines within information security. Our CISSP boot camp will provide you with a quick and proven method for mastering this huge range of knowledge.

- This is not a time-wasting “review seminar.” Cyber Security Institute has ZERO “fluff” in our CISSP boot camp program. We teach you what you need to know in order to pass the exam, nothing else!
- Cyber Security Institute’s CISSP materials are regularly maintained and synchronized with the latest exam objectives with integrated materials from the official (ISC) Guide to the CISSP Exam.
- You will find many smaller self-assessment exercises within the larger CISSP domains, as well as checkpoints after each of the 8 domains:
 - ⇒ Security and risk management
 - ⇒ Asset security
 - ⇒ Security engineering
 - ⇒ Communication and network security
 - ⇒ Identity and access management
 - ⇒ Security assessment and testing
 - ⇒ Security operations
 - ⇒ Software development security
